"We got Mayson's lenses in her frames today and they ROCK!!! ... they fit her so nice and they seem to be comfortable on her so she isn't taking them off! She is actually looking through the lenses and not OVER them!!!"

- A. Fledge

"It makes my heart glad that she gets to do something that a typical child does."

K. Marick

"This is a GREAT idea! We are always telling our son to push up his glasses, but this could be a great solution for him. It's not him, it's his glasses!"

-M. Griffin

"As for Ezrie, she's walked into a whole new world. She's happier, she's more hyper (oie!), and she's babbling more... Books are more interesting now, and she has advanced according to her therapists, suddenly, as if over-night. I watched her flip completely upside down and then back up, and her glasses didn't budge from her face. Transitioning her into wearing these glasses was easy... ALL THANKS TO YOU!!!"
